SX4500

Dynamic Ultimate Facial & Body Contouring System

The NeurotriS SX4500 combines the features and benefits of our premiere facial system with our ultimate body sculpting technology. This machine can perform facial treatments and body sculpting simultaneously.

Now, you can deliver the comprehensive anti-ageing results your clients seek for both face and body with a single system and in the same session. Utilising the advanced NeurotriS Dynamic Intelligent microcurrent technology, the SX4500 will tone, tighten, and lift the face while also offering a full range of body contouring services.

Ultimate Facial System

Facial Toning

Treat the most challenging skin types that come into your treatment room. The SX4500 has a complete multi channel facial system that is not matched in any other machine on the market. You will be able to lift, tone and tighten facial muscles for clients who have deep wrinkles and severe skin laxity.

The Multi channel signaling allows for more performance volume of the signals per square millimeter of skin surface area being treated with our famous 4 prong pico probes. This means that you will have the energy you need to achieve great results for some of your more challenging skin types. Give clients a luminous glow that has gorgeous hydrated, oxygenated skin from the dynamic microcurrent.

Skin Impedance Analysis: Reads the skin impedance and makes internal level adjustments based on the skin type and density at the time of the treatment for optimal performance.

Business Equipment Finance

Kennet Equipment Leasing is one of the UK's leading providers of business equipment finance and asset leasing, enabling customers to invest in the very latest business equipment without drawing on critical working capital.

Body Contouring System

Fat Reduction, Anti-Cellulite Treatments, Muscle Toning

The NeurotriS SX4500 utilises proprietary body channel wavelength settings to induce lipolysis, resulting in fat reduction. Unlike other methods, the NeurotriS SX4500 also enhances circulation and lymphatic flow, which are crucial for expelling dead fat cells. Additionally, the system can reduce cellulite by tightening the surface skin, preventing fat cells from bulging, and shrinking them through improved blood and lymphatic flow. The SX4500 also offers muscle toning by allowing the selection of specific channel settings.

Your SX4500 package Includes

- SV4500 Owner's Manual
