## SX3300 - Dual Channel System

### Moving Forward with Precision Skincare

Step into the future of skincare with the latest Neurotris Facial Sculptor, a cutting-edge device that redefines facial lifting, toning, and rejuvenation. Combining advanced technology with user-centric design, the SX3300 sets a new benchmark for skincare professionals seeking efficiency, precision, and unparalleled results.

#### Why Choose the SX3300?

##### Advanced Skin Composition Analysis

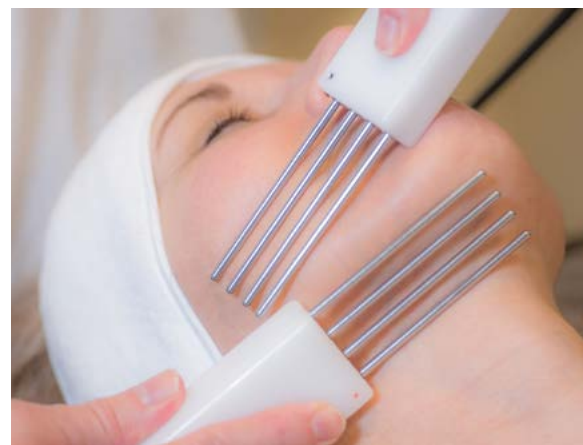

Deliver exceptional treatments every time with the SX3300's state-of-the-art Skin Composition Monitoring Computer. This revolutionary technology measures treatment outcomes in real-time, enabling personalised care for every client.

##### Multi-Tasking Efficiency

Time is invaluable, and the SX3300 maximises it with its eight applicator ports, allowing professionals to perform multiple treatments simultaneously. This feature boosts productivity and enhances client satisfaction.

##### Real-Time Feedback for Optimal Results

Achieve superior outcomes with the SX3300's real-time feedback system. The new Impedance Lights provide visual monitoring, ensuring even power distribution and maximum effectiveness. This gives clients confidence in the process and allows for seamless adjustments.
